Professional Summary

Computer Science undergraduate and full stack developer with a focus on backend engineering and system design. I build responsive web applications with Next.js and React, backed by REST APIs in Node.js, Express and NestJS, using PostgreSQL and MySQL through Prisma. I have built several full stack projects end to end, including a college management system, an e-commerce platform and a real-time chat application, and I am looking for a developer role where I can keep growing on real-world systems.

Technical Skills

Languages: JavaScript, TypeScript, Python, HTML5, CSS3

Frontend: React, Next.js, Tailwind CSS, Framer Motion, Figma

Backend: Node.js, Express, NestJS, REST APIs, JWT authentication, Socket.IO

Databases and ORM: PostgreSQL, MySQL, MongoDB, Prisma

Tools: Git, GitHub, Vercel, Docker, Redis, Kubernets

Projects

Engineering College Management System (ECMS) | Next.js, TypeScript, NestJS, PostgreSQL, Prisma | In development

- Building a full stack management platform for the School of Engineering at Far Western University, covering authentication, dashboards, attendance, results, notices, faculty and student records, and an admin panel.
- Designed a NestJS REST API with a PostgreSQL database managed through Prisma.
- Built a responsive Next.js and Tailwind CSS interface with light and dark themes.

Real-Time Chat Application | Next.js, TypeScript, NestJS, Socket.IO, PostgreSQL, Prisma, JWT | In development

- Developing a real-time messaging app with user registration, JWT-based login and instant message delivery over Socket.IO.
- Built it with its own NestJS backend and database, separate from other projects.
- Created animated authentication pages and a chat interface with selectable themes.

E-Commerce Web Application | Next.js, Node.js, Express, Prisma, MySQL

- Built a full stack shopping platform with user authentication and online payment integration.
- Developed the Express API and MySQL data layer using Prisma, connected to a Next.js frontend.

Personal Portfolio Website | Next.js, Tailwind CSS, Framer Motion, Nest.js | Portfolio | Ayush Pant

- Designed and developed a responsive portfolio with scroll animations, a filterable project showcase and a live accent-color theme switcher.
- Built a contact form connected to a backend API and deployed the site on Vercel.

Education

Bachelor of Computer Science | Far-Western University | 2024 - Present

Focus on system design, and building scalable, efficient software systems through hands-on projects.

Additional Learning

Self-taught through Documentations and Videos , covering responsive design and modern JavaScript/TypeScript frameworks.

Languages

Nepali (native), Hindi, English (professional working proficiency)
